As reported by the [U.S. Small Business Administration](#) ("SBA") for their fiscal year ended September 30, 2011, [Seacoast Commerce Bank's SBA Division](#) was the #1 local SBA lender in the [San Diego District](#), the 5th largest SBA lender in California, and the 18th largest SBA lender in the Nation, up from the 23rd largest lender last year. SBA rankings are based on total dollars approved, with Seacoast having \$156 million approved in 2011, up from \$92 million in 2010. Seacoast funded \$79.7 million in new SBA loans in the first nine months of calendar year 2011 compared to \$62.4 million funded in the first nine months of 2010, a 27.7% increase, and remains focused on reaching the goal of providing \$120 million in credit to small businesses in 2011. Of the \$79.7 million funded year-to-date, third quarter fundings were \$19.6 million.

As also reported, [MultiFunding](#) released its first annual list of the 'most committed' SBA lenders in the nation, and Seacoast Commerce Bank was ranked the 3rd most committed, nationally, at helping small-business owners get SBA loans. [MultiFunding's](#) list was based on SBA loans made as a percentage of a bank's total deposits. Ami Kassar, founder and CEO of [MultiFunding](#) stated, "[MultiFunding](#) has released its first annual ranking of the most committed SBA lenders in order to honor and recognize the banks across the country who are aggressively helping small business owners through the SBA program. These banks deserve all of our recognition and support for assisting the economy." [MultiFunding's](#) list can be found at www.multifunding.com.

Richard M. Sanborn, President & Chief Executive Officer, commented, "It's a great honor to be recognized as one of the most committed SBA lenders in the nation. We're also committed to providing stable, consistent results to our shareholders', and we're pleased to report our fifth consecutive profitable quarter. Our third quarter net profit resulted in a 16.7% annualized return on shareholders' average equity even after a \$300 thousand loan loss reserve build. This is an improvement on our second quarter return of 13.8%. In addition, with our strong capital and liquidity position, we're now starting to hold some of our SBA loan production. As of September 30th, we had over \$14 million in saleable SBA loans on our books. While the current gain-on-sale income from these loans would be substantial, we believe holding these assets long term provides us with excellent recurring interest income. It has always been our intent to hold our SBA production, provided we have sufficient capital and liquidity, as we firmly believe it builds stronger long-term shareholder value." Sanborn concluded.

Allan W. Arendsee, Chairman of the Board, stated, "Our goal has always been to provide a consistently superior return to our shareholders, while operating in a safe and sound manner, and I'm pleased we are delivering on that goal, having done so for the last five consecutive quarters. I'm confident our long-term focus is in line with shareholders' expectations and our continued improvement is due to the execution of the plan and strategies committed to by our team," Arendsee concluded.
